Depending on the level of risk, a special arrangement commission ranging from 0.50% to 5% may also be agreed upon (charged as a one-time fee). In the case of issuing a nostro guarantee without collateral coverage, if the confirmation by a foreign bank is conditioned upon the placement of a deposit, the Bank shall calculate and charge the dinar countervalue of the interest that would have been earned by placing the foreign currency deposit in the same amount and for the same period under market conditions.

Commissions calculated quarterly in advance shall be charged for the first quarter and for each full quarter during which the issued guarantee remains valid. For the period following the last full quarter of the guaranteed validity period, the commission shall be calculated in advance for each commenced month in the amount of one-third of the prescribed quarterly commission. In the event of an increase in the guaranteed amount, as well as in the case of extension of the validity period or other amendments to the guaranteed terms and conditions, the fee under the tariff items relating to the issuance of guarantees shall be charged.

Collateral coverage shall mean a foreign currency or dinar deposit placed for the validity period of the guarantee or loan.
